| Design: | Reichel Pugh 60 (18.2m) |
| Owner: | Steven David |
| Boat Builder: | Azzura Yachts |
| Mast Manufacture: | Carbontech Spars |
| Project Management: | Marine Project Management |

Comments:

Initially launched as “Wild Oats”, cordage was supplied to the yacht when first launched & also for her Admirals Cup campaign in 2003. Steven David purchased the yacht & renamed her “Wild Joe” in 2004. Sydney Rigging Specialists have recently updated her running rigging package to more modern specifications. Vectran has been replaced with Dynex Dux in the deck controls, mottle covers of Kevlar/polyester (PERFORMANCE) & Vectran/Kevlar (Precision) have been used extensively using “Bluetech SK75” cores. We have also successfully tested a new material on spinnaker sheet covers which will be released into the market soon as “Bluetech Precision”. Wild Joe won Airle Beach Race Week 2005 & placed 2nd at Hamilton Island Race Week 2005.
